

COVID-19 Quick Reference Guide

Using PRRD Water Stations

Description:

The Peace River Regional District currently owns and operates 4 water stations in Electoral Area B, with locations in Prespatou, Feye Spring, Boundary, and Buick which supply potable water to the public.

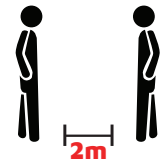

PRRD Water Stations have remained open and operational throughout the COVID-19 Pandemic; several new procedures have been implemented to follow all Provincial Health Orders.

Procedures for Using PRRD Water Stations:

- 1** Keep your distance. Follow Physical Distancing requirements and stay 2m / 6ft apart from others at all times.

Contractors work alone or travel separately when labour is needed.

- 2** Take precautions to manage your risk such as sanitizing your hands frequently and packing a 'Clean Trip Kit' that includes gloves and hand sanitizer.

Regularly used surfaces such as keypads, hoses, and handles are sanitized during each contract operator visit.

Please sanitize your hands before and after using equipment.
