

April 22, 2021

## **Public advisory: Public comment period begins April 29 for EAC amendment to haul material**

A public comment period will take place from April 29 to May 28, 2021, regarding BC Hydro's application to amend its Environmental Assessment Certificate for the Site C project.

The application to the B.C. Environmental Assessment Office focuses on using public roads to haul material from 85<sup>th</sup> Avenue Industrial Lands to the dam site on a contingency basis.

Hauling would only take place when the conveyor is not operating due to events beyond BC Hydro's control. This could include vandalism/sabotage, extreme and prolonged inclement weather, equipment repair delay/disruption, expertise disruption, localized fires, vehicle, equipment or human accident, and *force majeure* or "Act of God" events.

The public is invited to submit comments regarding adverse impacts that might result from the proposed amendment.

### **Review the complete application for amendment**
